

THOMSON HOUSE SCHOOL

Thomson House School

EYFS policy

Agreed by: Governor's Education Committee

Date: October 2023

Review Cycle: Annual

Review Date: October 2024

All the Thomson House School policies should be read in conjunction with the Equality Policy.

If you require a copy of this document in large print, Braille or audio format, please contact the School Business Manager

Introduction

Early Years Foundation Stage from birth to the end of the upon four principles:

A Unique Child

Positive Relationships

Enabling Environments

Learning and Development

(EYFS) applies to children Reception year. It is based

EYFS at Thomson House School takes place in the Reception year (age 4-5 on entry). Entry into Reception is in September at the beginning of the academic school year. All Reception children are encouraged to begin school at the start of the academic year although parents have the right to request a delayed start if they so wish.

This EYFS policy ensures that Thomson House School is fulfilling its legal requirement by following the Childcare Act Section 39 (1) (a) 2006 which states that EYFS providers must ensure that their provision meets the learning and development requirements as specified in the EYFS (Learning and Development Requirements) Order 2007 (amended 2012).

At Thomson House School, we follow the EYFS framework which sets the standards that all Early Years' providers must meet to ensure that the children learn and develop well and are kept healthy and safe. It promotes teaching and learning to ensure children's 'school readiness' and gives children the broad range of knowledge and skills that provide the right foundation for good future progress through school and life.

The Early Years Foundation Stage profile assessment sets out what is typically expected of most children by the end of the Reception year at school. Thomson House School has developed its own approach to the EYFS Profile assessment based on formative and summative strategies to ensure that teacher judgement is secure.

Aims and objectives

Within Early Years education we offer our children learning that is based on the following principles. We:

- Build on what each child already knows and can do;
- Are inclusive to all groups of learners and individuals, taking into account children's backgrounds, ethnicity, gender, EAL and SEND.
- Provide a rich and stimulating environment, including challenging, exciting and imaginative indoor and outdoor learning environments.
- Provide a wide range of opportunities for independent learning, adult directed learning, adult led learning and child-initiated learning.
- Encourage parents and carers to become involved in their children's learning

- Provide a positive, supportive environment where children feel safe and secure to learn.
- Develop positive attitudes towards learning from an early age.
- Give children a wealth of knowledge based on the Early Years Foundation Stage seven areas of learning.
- Provide an extensive range of opportunities for assessment in well thought out and detailed planning.

Curriculum in Early Years Foundation Stage

The curriculum of the Early Years Foundation Stage underpins future learning by promoting and developing seven areas of learning:

- Personal, Social and Emotional Development
- Physical Development
- Communication and Language
- Literacy
- Mathematics
- Understanding the World
- Art and Design

The characteristics of effective learning describe factors which play a central role in a child's learning and in becoming an effective learner. They are vital elements of support for the transition process from EYFS to Year 1. The characteristics of learning run through and underpin all seven areas of learning and development, representing processes rather than outcomes. Information describing the child's characteristics of effective learning will provide Year 1 teachers with vital background and context when considering the child's next stage of development and future learning needs.

Playing and exploring – engagement

Finding out and exploring
 Playing with what they know
 Being willing to 'have a go'

Active learning – motivation

Being involved and concentrating
 Keeping trying
 Enjoying achieving what they set out to do

Creating and thinking critically – thinking

Having their own ideas
 Making links
 Choosing ways to do things

The objectives within the EYFS [handbook](#) provide the basis for the EYFS curriculum at Thomson House. Our curriculum provides the steps children require to achieve a good level of development by the end of the foundation stage. Medium-term plans are topic based and identify the intended learning outcomes for children during this period. In addition, indoor/outdoor independent learning and adult directed planning are completed on a weekly and daily basis which highlight the objectives for the week and the vocabulary and resources children will need to achieve these objectives.

The school makes use of learning activities outside the classroom, where a planned programme of appropriate activities takes place at all times of year.

Teaching and Learning within EYFS

At THS we are continually developing teaching and learning within EYFS and aim to provide each and every child with a well-balanced, stimulating and meaningful learning experience.

We do this by:

- Providing children with a safe and nurturing environment in which they feel safe and secure to learn.
- The regular identification of training needs for all adults working in the EYFS; a range of INSETs within school and through the borough's CPD programme to develop the understanding that Teachers and Assistant Teachers have of how children in early years develop and learn, and how this must be reflected in their teaching; a carefully planned curriculum that helps children achieve the objectives by the end of the Early Years Foundation Stage; well-planned medium term plans and weekly planning based around the seven early learning goals.
- Regular monitoring of our work to evaluate its impact on pupils' progress and their wider social, personal and emotional development.
- Continuous monitoring of records, observations and focus tasks outcomes to provide feedback for teachers so that they can identify next stages of learning and improve their practice.
- Peer observations across EYFS and Key Stage 1 to develop a better understanding of the curriculum in different year groups, share teaching skills and good practice and enable EYFS practitioners to ensure pupils are ready for Year 1.
- Regular lesson observations and learning walks by leadership and those with subject responsibilities to ensure consistency, share good practice and to provide feedback to promote school improvement.
- Encouraging the partnership between teachers and parents/carers that helps our children to progress in all areas of the curriculum and helps them to feel secure at school and to develop a sense of well-being and achievement.
- Providing home learning opportunities which are appropriate for the age group and engaging for both parent and child.
- Providing supporting and interactive learning environments which provide extensive learning opportunities for children.
- Establishing good relationships between our school and the other educational settings in which the children have been learning before joining our school.

Inclusion at the Foundation Stage

We believe that all our children matter. We give them every opportunity to achieve their best. We do this by taking account of their wide-ranging life experiences when we plan for their learning.

Within Early Years Foundation Stage, we have realistic but high expectations that challenge the children so that every child achieves to their best of their ability. We help them do this by planning to meet the individual needs of every child as well as the needs of different groups of learners. These include boys and girls, children with SEND, children from all social and cultural backgrounds including those entitled to free school meals, children from different ethnic groups and of those from diverse linguistic backgrounds.

We meet the needs of all our children through:

- Planning opportunities that build on and extend the children's knowledge, experience and interests, and develop their self-esteem and confidence.
- Using a variety of teaching strategies that are based on children's learning needs.
- Providing a wide range of opportunities to motivate and support all children, and to help them to learn effectively.
- Offering a safe and supportive learning environment, in which the contribution of all children is valued.
- Employing resources that reflect diversity, and that avoid discrimination and stereotyping.
- Planning differentiated activities that challenge all children, their educational needs and cater for their ability.
- Monitoring children's progress and providing support where necessary (such as speech therapy, 1:1 support, working with the Educational Psychologist).
- Identifying and informing the SENDCo of any concerns, seeking advice where necessary.
- Identifying groups of learners within our setting and ensuring that all groups and individuals are planned for effectively and make good progress.
- Regular data analysis carried out by the leadership of the school, which enables us to identify individual needs and groups of learners' needs.

Assessment

Assessment within Early Years Foundation Stage is an important and valuable tool which helps teachers to identify the needs of individual children and groups of learners in order to plan the next steps of their learning.

We use the Early Years Foundation Stage Profile handbook. This is a nationally employed assessment tool which outlines the objectives within each of the seven areas of learning. This document is a vital tool when planning for and assessing children's progress and attainment. This is done by reference to the appropriate statements in Development Matters (2021), which lists all the age-appropriate objectives within each of the seven areas of learning. Tracking pupil progress informs planning and next steps for individual children, identifying those who are performing at the expected level, those who are below the expected level each term. Assessment in Early Years Foundation Stage takes the form of

observations of child-initiated activities at school, evidence from home and evidence gathered from teacher directed tasks.

Baseline Assessments:

The National Foundation for Educational Research (NFER) is the Department for Education's contracted provider of the **Reception Baseline Assessment**. The assessment is used as a baseline for measuring the progress primary schools make with their pupils. It is a practitioner-led, activity-based, assessment of children's attainment in early literacy, communication and language and early mathematics skills.

The baseline assessment takes place during the first six weeks in Reception. A brief initial assessment of each child's knowledge of number and letter sounds is followed by a baseline assessment of the seven learning areas through well thought out learning opportunities and observations.

Baseline observations are informed by the document 'Individual Child Profile: Development Matters in the Early Years Foundation Stage (EYFS)'. These baseline assessments are completed as soon as possible and no later than the first half term for each child.

Part of the baseline assessment takes place during the home visit including an assessment of children using the Leven scale. This allows us to assess the children in a setting that is familiar to them.

Baseline assessments allow us to identify patterns of attainment within the cohort and to plan for individual children and groups of children. We use this information to inform planning and set targets for the children.

Observations and Continuous Assessment in EYFS:

Throughout the year we plan for a range of learning and assessment opportunities. Through observations and by collecting evidence we are able to establish which objectives and Early Learning Goals each individual child has achieved. We are then able to monitor both progress and attainment.

We keep records of children's learning journeys through Target Tracker and from our evidence and observations we can plan for next steps in each child's learning journey. Each half term the class teacher and the assistant teacher will observe each child on a given day. In Autumn, these observations will focus on the characteristics of effective learning. In Spring, these observations will focus on the prime areas of learning. In Summer observations will focus on the specific areas of learning if the child is secure in the prime areas of learning. We prepare the children's Target Tracker observations at the end of each term, to be shared with the parents at the start of the next term.

Focus tasks are carried out each week to assess children on learning objectives from the Thomson House EYFS curriculum and to monitor developmental stages and progression. Teachers and assistant teachers will lead 2 - 3 focus task each week. At the end of the focus task, they will assess each child and decide if they have met, not met or exceeded the learning objective. Children who have not met the objective will continue to work towards

the learning objective through small group interventions until they are secure. Children who exceeded the learning objective will be planned for in the following weeks teaching.

Ensuring Quality Data - Moderation:

In order to ensure quality baseline assessment, Reception teachers work together for agreement trialling and moderation with year 1 teachers, to ensure data is agreed and that teachers' judgements are robust and accurate. Training by the borough, internal moderation with Senior Leaders and external moderation are important parts of this process.

The school has links with neighbouring school and reception teachers meet during the summer term to moderate together and ensure teacher judgements are consistent.

After all data is collected and moderated these assessments are analysed by the borough. All information and assessments are passed on to the child's next teacher who uses this information to plan for the year ahead. We share this information at the end of the year with parents when they receive their child's report.

The role of parents and carers

We believe that all parents and carers have an important role to play in the education of their children. We therefore recognise their role by:

- Visits by the teacher to all children in their home setting prior to them starting school.
- Some visits by the teacher to children's nurseries prior to them starting school.
- Offering parents and carers regular opportunities to talk about their child's progress through an open-door policy and through Parent/Teacher meetings.
- Encouraging them to support their child in home learning activities.
- Encouraging parents and carers to talk to the child's teacher if there are any concerns.
- Offering a range of activities supported by FOTH, throughout the year that encourage collaboration between child, school and home.
- Providing various activities that involve parents and carers such as inviting parents and carers to curriculum meetings, SEND meetings in order to discuss the kind of work that the children are undertaking in class and how they can continue to work with their child at home.
- Parents receive an annual written report on their child's attainment and progress at the end of the school year.

Welfare of Pupils

- The class teacher is responsible for the pastoral care of each child as well as the academic side of school life. Assistant Teachers support the class teacher in this important role.

- The school's named First Aider and two members of the EYFS teaching team are qualified in Paediatric First Aid. All members of EYFS staff have first aid training.
- Medication will be kept in the school office, well out of reach of pupils and administered in accordance with the Medicines in School Policy.
- Thomson House School complies with its Behaviour Policy. We do not use capital punishment under any circumstances. Physical intervention is only permitted to avert immediate danger of injury to self or others. Such occasions will be recorded and reported to the Governors. Parents will be informed on the same day or as soon as reasonably practicable.
- All safeguarding and child protection concerns will be reported to the Designated Safeguarding Lead and procedures followed in accordance with the school's Child Protection and Safeguarding Policy.

Parents/ Carers working with young children:

- All parents/Carers that work with children on a 1:1 basis are required to have a DBS check.
- If a DBS check is not obtained Parents/Carers must always stay with a member of staff whilst in the school. This includes time spent on school trips.
- Parents/ Carers must not take photographs of any child.

Transition to Year 1

Towards the end of the Reception year, the teachers will begin to prepare the children for the more formal education which they will receive in Year 1.

We do this by:

- Gradually moving the timetable in the summer term to one more akin to that of Y1.
- Preparing the children with daily guided reading sessions, similar to those in Year 1.
- Allowing the children to spend time in the Year 1 classrooms with Year 1 staff – more frequently for those children with special needs.
- Scheduling a 'Meet the Teacher' day towards the end of the summer term, when all classes will spend part of the day with their new teacher in their new classroom.
- Presenting to parents the expectations for a child in Year 1, the differences in timetable, homework and learning.
- Allowing time for the teachers of the existing classes to 'handover' to the Year 1 teachers, giving information on family background, learning styles, friendship groups, academic ability, progress achieved through the year etc.
- Ensuring we have an open-door policy for any concerns the parents and/or children may have.

Mobile phones

Mobile phones must not be used during class time by any adult (Teachers and/or parents/carers). This includes using mobile phones to take pictures of children apart from the authorised use of the school's iPhone camera/ school's ipads.

Monitoring and review

This policy is monitored by the Education Committee and will be reviewed at least annually.

Date of Policy: October 2023

Date to be reviewed: October 2024
